

means when he gives it to another man. And explain to your satisfaction, if you can, just why it should so often mean something else—when he gives it to a woman.

#### SLEEVELESS SUMMER WRAP

Collar of Cape Size.

By Betty Brown

Collars have increased to cape size and shoulder capes have grown until they make sleeves quite unnecessary.

A unique wrap of chartreuse charmeuse looks like a series of three capes so arranged that openings do away with sleeves.

This splendidly simple design is made elaborate by a generous amount of Oriental embroidery.

#### EASY ICE CREAM

Prepare a pint of rich boiled custard with 1 pint of milk, a pinch of salt, 3 eggs lightly beaten and  $\frac{1}{2}$  cup of sugar. Cook over hot water to a thick consistency, but do not boil. Remove from the fire, cool, flavor to taste with orange flower water and a few drops of bitter almond extract. This gives a delicious pistachio flavor. Fold in a pint of stiffly whipped cream beaten with 2 tablespoons of powdered sugar, and color lightly with a few drops of green coloring matter. Turn into a chilled freezer and, after packing with ice and rock salt, freeze slowly so that the cream will have a smooth texture.

Ice cream made after this recipe is so nutritious it should be preceded by a simple and inexpensive dinner.
